EDUCATION

- **George Mason University** Fairfax, VA
Sophomore: Information Technology; GPA: 3.8 2024 – 2027
- **Woodbridge Senior High School** Woodbridge, VA
Advanced Diploma; GPA: 4.3 2020 – 2024

TECHNICAL SKILLS

- **Languages:** Python, C, C++, SQL, Javascript/Typescript, HTML/CSS, SQL, SQLAlchemy
- **Technologies/Programs:** Nodejs, AWS, Next.js, FastAPI, Playwright, Git, Docker, PostgreSQL, PG Admin, Wireshark, Postman
- **Libraries:** React, Tailwind, Svelte/Sveltekit, Bootstrap, Selenium, pandas, NumPy, tKinter

EXPERIENCE

- **Stroy Holdings** Virginia
DevOps Engineer Jan 2025 - present
 - **Internal Auditing:** Performed analysis of financial data using Excel functions and SQL queries, finding 15+ insights monthly that improved operational efficiency. Proficient in Office 365, Google Workspace, and Azure Data Analytics.
 - **System Admin:** Configured and maintained enterprise software systems and RESTful APIs with maximum uptime. Resolved 50+ weekly technical support tickets for management team and implemented automated troubleshooting protocols.
 - **Logistics:** Maintained a database which oversaw acceptance of products to storage facilities, managed partnership with storage leasing providers, directed stock keeping of products and shipping supplies as well as partnerships with shipping label providers.
- **Rapidpass** Virginia
Information Systems Intern Jun 2024 - Sep 2024
 - **Stripe Integration:** Worked with a professional team to develop a payment processing solution and verification system using Stripe and integrate into existing software. Successful implementation of new payment processing increased rate of new users per month by 20%. Utilized JavaScript, Node.js, and RESTful API architecture.
 - **Data Analytics:** Organized data from multiple sources and crafted graphs and reports for project managers using Excel and Powerpoint. Used Python to write scripts and integrate into software to obtain user data. Developed automated reports using Excel VBA and PowerPoint for C-level presentations.
 - **Cloud Infrastructure & DevOps :** Gained familiarity operating with a professional team. Gained experience in industry standard tools such as AWS, Microsoft Excel, Slack, Docker, Visual Studio.
 - **Full Stack Development :** Utilized knowledge of Python and supporting libraries such as SQL Databases. Gained hands-on experience with Svelte frontend framework, Node.js backend, and RESTful API development connecting to Stripe payment services.

PROJECTS

- **Personal Website (<https://alex9m.com>)** — **Clouflare, Sveltekit, Nginx:** Personal portfolio style website made using Svelte and hosted on a Raspberry Pi 4. Gained experience with server architecture and Linux.
- **Amazon Report Visualizer** — **tKinter, SQL:** Open source python application using Tkinter meant to accept seller reports from Amazon's seller central and convert them in to an easily digestible table, visibly outlining outliers such as late delivery orders.
- **Amazon Shipping Label Automation** — **FastAPI, JSON, SQLAlchemy:** Middleware which utilizes Amazon's selling partner API to accept customer address information and interacts with label provider API to generate shipping labels. Can monitor tracking information to notify the seller of late or unreachable packages.

OTHER SKILLS AND ACHIEVEMENTS

- **Eagle Scout:** Leadership, Teamwork, Community Service
- **Retail Employment:** Hospitality, Fast-Paced Environment, Time Management
